EDUCATION

JC Bose University of Science and Technology, YMCA Haryana, India
Aravali College of Engineering and Management
Bachelor of Technology - Computer Science and Engineering; CGPA: 8.32 Aug 2019 - July 2023

Courses: Data Structures, Analysis of Algorithms, Object Oriented Programming, Databases, Operating Systems

SKILLS SUMMARY

Languages: Java, JavaScript,Kotlin.

Technology: React, Java™ 2 Platform, Enterprise Edition (J2EE), Android (Kotlin), JSP & Servlet, Java Database Connectivity (JDBC), Model-View-Controller (MVC Architecture)

Designing: HTML, CSS, Bootstrap, XML

Tools: MySQL, SQL Server, Android Studio, Apache Tomcat, GitHub, Visual Studio Code, Visual Studio, Sublime, Firebase.

Platforms: Windows, Linux, Web, MacOS, Android

Soft Skills: Team Collaboration, Leadership, Event Management, Public Speaking, and communication.

EXPERIENCE

AGS Transact Technology ltd. Gurugram
Executive *April 2024 – Present*

SoftSynth Software Solution Pvt. ltd. Faridabad
Java Full Stack Developer (Intern) *July 2022 – June 2023*

PROJECTS

AGS Checker (Punjab National Bank TSS):
- Managing checker software on server and services based on Java Apache tomcat and JBoss services.
- Controlling Database of ATM's connectivity on database server of Punjab national bank.
- Managing admin control of ATM's.
- OS and Database Patching.
- Collaborated with the Punjab National Bank(PNB PNB team for technical support.

Shikshasaar
- A non-governmental organization (NGO) project in *SoftSynth Software solution*.
- Tech stacks worked with – J2EE, JSP, Servlet, MVC Pattern, JDBC, MYSQL, JavaScript.
- Handling Database connectivity.
- Designing and maintaining contact module with query form.

Gmail Clone (Mailing Web App):
- Mailing application with great user interface project in *SoftSynth Software solution*.
- Tech Stack: J2EE, JDBC, MVC Pattern, JS, MYSQL, HTML, CSS/Bootstrap.
- Mail Reading and Composing of messages according to their interest of category.
- Wrote efficient, maintainable, and reusable code prioritizing privacy and security.

Canvas (A Drawing Platform):
- Drawing Platform where users can create Designs with Different Shades.
- Draw on an Image, and Save their Art to device Memory.
- Explored how to design Android applications.
- Tech Stack: Kotlin, XML, Android Development. Link
